Applications/Limitations

1. This Material Manufacturer Statement does not exempt any purchaser from his responsibility to ensure that this qualification is valid for his products within the essential variables of NORSOK M-650 / NORSOK M-630.
2. Supply of the products as listed above shall be as per inspection documentation EN 10204 type - 3.1 or 3.2 requirements under the discretion of the Purchaser.
3. The production test sample / Integral test block or Gated test block requirements shall be as per relevant MDS under the discretion of the purchaser.
4. The re-qualification process as per NORSOK M-650 clause 8.2 shall be repeated if any essential changes are made to the production route or the manufacturing procedure. E.g. change in the final melting/refining process, a major change of the casting method, a major change of manufacturing equipment, welding procedure & process etc.
5. If production is carried out at different plants/locations, a separate qualification is required for each plant. This applies also for change of in-house to subcontractors or change of subcontractor for essential operations as e.g. heat treatment, etc.
6. Welding shall be carried out by qualified welders according to qualified procedures as per the respective MDS of NORSOK M-630 and approved by Notified Body (NoBo) or Recognized Third Party Organization (RTPO).
7. NDT operator qualification shall be as per ISO 9712 approved by a Recognized Third Party Organization (RTPO) and based on the purchaser's requirements.
